

# May

## Grade 1 Newsletter – May in Review

### Introduction...

We had our first Green School Trip filled with gingerbread and sightseeing! We finished our "Plan a Podcast" project, creating and recording our very own podcasts on topics like: haunted and historical places, inventions, money, fast food and more!

### In English Language,

We finished our "Digital Country Research Project" where we researched a country of our choosing and then created a travel brochure for tourists. We also learned the simple past tense, comparing and contrasting and about life on a cruise ship!

### In Mathematics,

After capacity we began learning about mass! We ordered and compared objects based on their mass. Did you know weight can change, but mass stays the same?

### In Social Studies,

We began learning location words like across, beside, near and down with a game using characters from The Simpsons! We will end the year with reading and making our own maps!

### In Science,

We finished our unit on natural structures, where we learned about biomimicry, and began our unit on day and night! We learned how the rotation and tilting of the Earth give us day, night and seasons!

### In Art,

We studied the Japanese artists Yayoi Kusama and her dot-filled artwork! We made our own Kusama inspired artworks with oil pastels. To celebrate our amazing moms, we made Mother's Day cards too!

Happy May!

Miss Kelly

### IMPORTANT DATES:

June 10th - Grades 0/1  
Parent Teacher Meeting

June 5th - Mind Your Business! Project

June 24th - Summer Break Begins!

Pictures, pictures, pictures!
