# GREEN SCHOOL Edition

This year's Green School took us to the Kaszuby region of Poland. We visited an adventure park, saw the Charlotta Valley and climbed what felt like a hundred sand dunes to get to the beach. We looked at a rural homestead and saw the Sunken Forest. We hiked nature trails and visited a water park. Our students got to make gingerbreads in Torun and explore the lovely city during a rainstorm. Every minute was an adventure.
