Our system works on the basis of prepayments, which means that in order to be able to order meals, you must first make an advance payment, and after it is credited in the application, place an order (choose meals for each day). The payment itself does not mean an order because we do not know which meals have been selected and for which days.

Order and cancellation:

Ordering on a monthly basis (lunch and meals containing dinners / afternoon snacks is possible until 31.08.2024 **for the month of September** until **20:00**, **from the next month the deadline will be until the 28th**, i.e. **the order for October can be placed until 28.09.2024 at the latest.**

Cancellation is possible every day until 20:00 **on the day before the meal is served.**

After registration, we encourage you to use a convenient mobile application.
