

October

Grade 1 Newsletter – October in Review

Introduction...

This month we continued working on our Animal Research Project, had our Pledge Ceremony and celebrated Halloween by doing short novel studies on spooky stories!

In Language Arts...

We learned about possessives and how to compare and contrast using Venn Diagrams.

In Art...

We learned about Andy Warhol and made self portraits. We also made trick or treat bags and painted spooky pictures for Halloween!

In Maths...

We learned how to order and sort objects and applied this to real life by ordering and sorting objects in our classroom! We also started to look at adding and subtracting numbers 1-20.

In Social Studies...

We discussed how we are changing and becoming more responsible as we move through Grade 1.

In Science...

This month, we continued learning about the needs and characteristics of living things, focusing on the difference between wants and needs. We also explored the parts of plants, learning their names and functions, like how roots take in water and leaves help plants grow.

Pictures, pictures, pictures!

IMPORTANT DATES:

- November 11th - Independence Day (School Closed)
- November 19th - Individual Parent-Teacher Meetings
