

# February

## Grade #1 Newsletter - February in Review

### Introduction

We talked about all the fun things we did during winter break and continued working on our Going Places project.

### Mathematics

We looked at how many sides and vertices 2D shapes have. We reviewed our knowledge by finding objects in the classroom that resembled 2D shapes.

### Science

Students investigated the properties of different materials and why they are used for specific purposes. We discussed how strength, flexibility, and durability affect material choices in construction.

### Language Arts

We started learning about Animals & Plants and how living things are connected and can help each other. We also started our first novel study - Nate the Great!

### Social Studies

We talked about 'My Friends and Me'. We discussed all the interests we have in common, our differences but also; the things we like to do together!

### Art

We painted pictures in the style of Georgia O'Keeffe. We also started to study our next artist - Etel Adnan!

Pictures, pictures, pictures!

### Important Dates:

10th March - 'Observe with a New Perspective' (Class Project in groups)

20th March - Spelling Bee (Class round)

27th March - Spelling Bee (Finals)
